

Hammer of the Witch

Ringworm

You suffocate, I bind your limbs
You suck the life from me, like leeches on your skin
Soulless fraud, turn the screw, no act of god, as I judge
you
Forked tongue; disguise of vanity
Poison; evil alchemy
Die young; there for all to see
You will feel the Hammer of the Witch
Now burn alive with me
Hanging from the highest tree
Give you all insanity
You will feel the Hammer of the Witch
The master of the sacred lies
To break you on the wheel with daggers in your eyes
Unholy death, confession signed
Forked tongue; disguise of vanity
Poison; evil alchemy
Die young; there for all to see
You will feel the Hammer of the Witch
Now burn alive with me
Hanging from the highest tree
Give you all insanity
You will feel the Hammer of the Witch
We strip the flesh and we disown I'd die a million
deaths to see you die alone
Alone
Rite of violence; Satan's bitch
Feel the icy water
Damn the witch
Slowly the point will break the skin
To hear the cries of guilt, confession of your sins
Impaled by truth; condemned by life
To see you inside your soul and open with a knife
Into the flame you descend, denying the truth 'til the end
Your body will soon be of ash; feeding the Devil your flesh
Into the grave in the ditch; burning alive Devil bitch
All of the pain that you feel
The Hammer of the Witch
