

# Spacin Out

## The Mowgli's

Making something out of nothing  
Flip your hair and space out  
Searching for a way out  
Convince yourself to stay out  
We speak a different language  
Acting like we're famous  
Invisible like everybody is I was busy looking for forever in you  
I did not look for somebody new  
Spacin out  
On the words coming out of your mouth  
Spacin out and out and out  
Feeling everything and nothing  
So in love that it's disgusting  
It's fine cause I can't feel  
Stronger on my way it never works out  
A Disneyfied and played out  
Your love is like a bloodhound  
I'll track you down I was busy looking for forever in you  
When you looking for something that you already knew  
Got me spacin out  
Spacin out  
On the words coming out of your mouth  
Spacin out and out and out  
Spacin out  
On the words coming out of your mouth  
Spacin out  
You got me spacin out  
Uuh uuh  
You got me spacin out  
Uuh uuh  
You got me spacin out  
Uuh uuh Spacin out  
On the words coming out of your mouth  
Spacin out  
Spacin out  
On the words coming out of your mouth  
Spacin out
