Love

Jana Kramer

The moon is brighter than the morning sun
The birds sing sweeter and the bees they buzz
A silly little song and we're humming alongDancing like a dandelion, swaying in a breeze
Floating like a butterfly, falling like an autumn leave
It's no ordinary thing between you and meThat's what I love about your love
Knocks me off my feet
Takes me on a trip to another galaxy
Smacks me with a smile longer than a country mile
Gets my heart a runnin' like a river running wild
I can never get enough
That's what I love about your loveYou lean over my shoulder and it's over and done
Ain't nothing like a feeling of finding that one
It's the piece of the puzzle
Ain't no doubt about it
It's a good kind of troubleThat's what I love about your love
Knocks me off my feet
Takes me on a trip to another galaxy
Smacks me with a smile longer than a country mile
Gets my heart a runnin' like a river running wild
I can never get enough
That's what I love about your loveIt puts the hun in my honey
Oh it puts the fun in my funny
It's right on the money
And all of the aboveThat's what I love about your love
Knocks me off my feet
Takes me on a trip to another galaxy
Smacks me with a smile longer than a country mile
Gets my heart a runnin' like a river running wild
I can never get enoughThat's what I love about your love
That's what I love about your love
That's what I love about your loveThe moon is brighter than the morning sun (That's what I love about your love)
The birds sing sweeter and the bees they buzz
