

# Love

[Jana Kramer](#)

The moon is brighter than the morning sun  
The birds sing sweeter and the bees they buzz  
A silly little song and we're humming along Dancing like a dandelion, swaying in a breeze  
Floating like a butterfly, falling like an autumn leave  
It's no ordinary thing between you and me That's what I love about your love  
Knocks me off my feet  
Takes me on a trip to another galaxy  
Smacks me with a smile longer than a country mile  
Gets my heart a runnin' like a river running wild  
I can never get enough  
That's what I love about your love You lean over my shoulder and it's over and done  
Ain't nothing like a feeling of finding that one  
It's the piece of the puzzle  
Ain't no doubt about it  
It's a good kind of trouble That's what I love about your love  
Knocks me off my feet  
Takes me on a trip to another galaxy  
Smacks me with a smile longer than a country mile  
Gets my heart a runnin' like a river running wild  
I can never get enough  
That's what I love about your love It puts the hun in my honey  
Oh it puts the fun in my funny  
It's right on the money  
And all of the above That's what I love about your love  
Knocks me off my feet  
Takes me on a trip to another galaxy  
Smacks me with a smile longer than a country mile  
Gets my heart a runnin' like a river running wild  
I can never get enough That's what I love about your love  
That's what I love about your love  
That's what I love about your love The moon is brighter than the morning sun (That's what I love about your  
love)  
The birds sing sweeter and the bees they buzz
