

Christmas Eve

Celine Dion

Snow falling gently to the ground
 'Tis the night before
And in my heart there is no doubt
 That this is gonna be
 The brightest holiday
 'Cause here you are with me
 Baby, baby, I can't wait
To spend this special time of year with someone who
 Makes me feel the special way that you do
 Walkin' with you in a winter's snow
 Kissin' underneath the mistletoe
 People smiling everywhere we go
It's Christmas Eve and they can see we're in love
 Ooh, you make the season bright
 With the lights reflected in your eyes
 All my dreams are comin' true tonight
It's Christmas Eve and I can see we're in love
 We'll stay up late tonight
 Decorate the tree
 Just look into my eyes
 And I will tell you truthfully
 That I don't need no Santa Claus
 To hear my Christmas wish
 I got you in my arms
 And what could be a better gift
 Than to spend my favorite time of year
With the one I really love so near, Oh Yeeeahhh
Walkin' with you in a winter's snow (winter snow)
 Kissin' underneath the mistletoe (mistletoe)
 People smiling everywhere we go
It's Christmas Eve and they can see we're in love
 Ooh, you make the season bright
 With the lights reflected in your eyes
 All my dreams are comin' true tonight
It's Christmas Eve and I can see we're in love
And bells are ringing when I hear you say
 We'll do it all again on Christmas Day
 I can't wait
 Walkin' with you in a winter's snow

Kissin' underneath the mistletoe
People smiling everywhere we go
It's Christmas Eve and they can see we're in love
Ooh, you make the season bright
With the lights reflected in your eyes
All my dreams are comin' true tonight
It's Christmas Eve and I can see we're in love
Walkin' with you in a winter's snow
Kissin' underneath the mistletoe
People smiling everywhere we go
