

Long Live Tonight

LANco

Put your phone away
I know you want to check it
This is one of those nights
And I don't want to wreck it
With distractions and worries
Bout what all could go wrong tomorrow
Just live in this moment
And know that there's no time to borrow
It's a crazy, crazy, world out there
But baby baby don't be scared
Cause I got you and you got me
We can set each other free
One day, one day, when we're old
We'll look back, look back, and we'll know
We always kept our dreams alive
Loved and laughed until we cried
Ruled the streets until the morning light
Singing
Long
Live
Tonight
Singing
Long
Live
Tonight
I know an old spot
It ain't that cool
But they got a little dance floor
We can act like fools
We'll ask the DJ
To play every song from the 90's
We'll tear it up till
The sun starts to rise and it's blinding
It's a crazy, crazy, world out there
But baby baby don't be scared
Cause I got you and you got me
We can set each other free
One day, one day, when we're old
We'll look back, look back, and we'll know
We always kept our dreams alive
Loved and laughed until we cried

Ruled the streets until the morning light
Singing
Long
Live
Tonight
Singing
Long
Live
Tonight
Long live, long live
Tonight tonight
Long live, long live
Tonight tonight It's a crazy, crazy, world out there
But baby baby don't be scared
Cause I got you and you got me
We can set each other free
One day, one day, when we're old
We'll look back, look back, and we'll know
We always kept our dreams alive
Loved and laughed until we cried
Ruled the streets until the morning light
Singing
Long
Live
Tonight
Singing
Long
Live
Tonight
