

Love Never Dies, Pt. 1

Apoptygma Berzerk

Forever in your arms, you said, forever in my heart My love for you will make us both climb higher Driven by
the power that is burning in our hearts You know my faith in you will keep us together Forever in your arms you
said, forever in my heart My love for you will make us both climb higher I sense your presence in this room, I
feel that you are near You hold me close and whisper, "Love is forever" Love is forever...
Love never dies...
