

We're Over

Piper Hinson

I fell so hard for you from the start
I gave you every piece of my heart
You told me you were mine and I believed you said
I should've listened to the voice in my head
So why would you kiss me, why would you stay with me
If you never meant to leave her
and why did you hold me, why did you say to me I'll love you forever
'Cuz now we are over
Yes now we are over
We'll never be together
'Cuz we are over
You called me late at night when I'm home
Saying girl I miss you in my room
I should've walked away from you, from you
But I was hypnotized by you, by you
Why would you kiss me, why would stay with me
If you never meant to leave her
And why did you hold me, why did you say to me
I'll love you forever
'Cuz now we are over
Yes, we are over
We'll never be together
'Cuz we are over
But just know I left you
More than anyone ever
I'll keep our memories
Here with me forever
But I will not change from
Or anyone else ever
So I'm leaving you
Right here and now
Now we are over
Yes, we are over
We'll never be together
'Cuz we are over
We'll never be cuz we are over
We'll never be cuz we are over.
Baby we are over.
Cuz you can't leave her

We'll never be, we're over
