

Open Invitation

Santana

You be you and let me be me
No strings attached emotionally
I want to get a little crazy
That's puttin' it plain
You got the medicine and I got the pain When you just want to feel good
Like the doctor said
One good dose of loving
It's gonna straighten out your head You got an open invitation
On that you can rely
You got a prepaid reservation
And that's the only way to fly Let's make love, the feeling is right
Just passing by like ships in the night
Oughta get a little friendly
There's no time like now
You bring the attitude and I'll show you how Anytime you're ready
Anytime at all
Just come on over
Don't even have to call You got an open invitation
On that you can rely
You got a prepaid reservation
And that's the only way to fly When you just want to feel good
Like the doctor said
One good dose of loving
It's gonna straighten out your head You got an open invitation
On that you can rely
You got a prepaid reservation
And that's the only way to fly
