

Everything Will Be Alright

Jet

Tell me everything
Tell me everything
Everything will be alright
It's gonna be alright
Tell me everything
Tell me everything
Everything will be alright
It's gonna be alright
They'll never hurt you again
Now where to run no end in sight
Tell everyone that you are right
Yeah
Tel me tel me again will it ever end

Nothing seems to come out right
It doesn't come out right
Ain't it the truth
No where to run no end in sight
Tell everyone that you're are right
All of this life I never meant to tell a lie
And if I can hold I tell you its alright
[Instrumental]No where to run no end in sight
Tell everyone that you're alright
All of this life I never meant to tell a lie
And if I can hold I tell you its alright
And if I can hold I tell you its alright
