

# Simple Kind Of Lovely

## Kara's Flowers

Leaning on a tree trunk  
Thinking all the same junk  
Fallin in and out of a dream Back and forth i'm swaying  
I'm contemplating staying  
Laying and decaying when i know i must leave Where do i am when i shoot the breeze  
How do i call myself at times like these I need a simple kind of lovely  
The thought is just a novelty You can spend the whole time  
Dangling from a grape vine  
Standin underneath you when they cut you free What about when the sun leaves  
and What about all those bad dreams  
Who will walk you back into reality I wish this could be like this everyday  
But i know that i could never live this way  
Was just a simple kind of lovely  
The memories will be okay I wish things could be like this everyday  
But i know i could never live this way  
Was just a simple kind of lovely  
and the memories will be okay Was jus a simle kind of lovely  
and the memories will be okay
