

# I'm Wit It

702

You got a lot of character  
The way that you carry yourself  
The way you talk to me  
You was tangible, so respectful, unforgettable  
Baby, I love the way you be wit me  
So why you coming at me about these material things  
When I've never asked you for nothing  
I don't care about what you be having  
Boy, stop it 'cause I could care less what you got in your pocket  
Even though I must admit it's hot when you stop  
And the wheels keep spinning  
That's not the reason why I'm wit it  
It don't fade, me I'm happy that you out there making your money  
And, yeah, I like it we in the drop  
And the top down wind be blowing  
That's not the reason why I'm wit it  
You got good manners, you always be to yourself  
You really impress me  
So don't go messing up being silly 'cause  
'Cause you got your trust  
I understand you're doing good  
But don't let that go to your head  
'Cause I can do with it or I can do without it  
And don't you ever get it twisted  
Boy, stop it 'cause I could care less what you got in your pocket  
Even though I must admit it's hot when you stop  
And the wheels keep spinning  
That's not the reason why I'm wit it  
It don't fade me, I'm happy that you out there making your money  
And, yeah, I like it we in the drop  
And the top down wind be blowing  
That's not the reason why I'm wit it  
Boy, stop it 'cause I could care less what you got in your pocket  
Even though I must admit it's hot when you stop  
And the wheels keep spinning  
That's not the reason why I'm wit it  
Why you tripping on the things you have  
And the things you've got  
I'm not tripping on where you live or the car that you drive

You got your's and I've got mine, so don't you get to trippin'  
Boy, stop it 'cause I could care less what you got in your pocket  
Even though I must admit it's hot when you stop  
And the wheels keep spinning  
That's not the reason why I'm wit it  
It don't fade me, I'm happy that you out there making your money  
And, yeah, I like it we in the drop  
And the top down wind be blowing  
That's not the reason why I'm wit it  
Boy, stop it 'cause I could care less what you got in your pocket  
Even though I must admit it's hot when you stop  
And the wheels keep spinning  
Reason why I'm wit it  
I'm happy that you out there making your money  
When we in the drop and the top down  
Even though I like it  
Bit that ain't why I'm wit it, yeah
