

Welcome To Nowhere (2016 Remastered)

The Mint Chicks

We're not different
We're non-descript
We're blending in I would like to spend some time in isolation with you We're not different
We're non-descript
We're blending in I would like to spend some time in isolation with you I come from nowhere
Welcome to nowhere
Don't get me wrong
I'm happy to dance the night away
