

Little Blue

[Martin Courtney](#)

Look at all the miles in the mirror
all the pavements in your past...
Everyone brought you that much nearer
til you found yourself home at last.Maybe I'll accend to some music.
knowing nothing can reach me...
Crack open the window
won't you sit closer to me...?As the wheels of time keep turning
I've got wheels that can take me home
As these wheels of mine keep turning
can't forget where I have gone...
Maybe I'll accend to some music
knowing nothing can reach me...
Crack open the window
won't you sit closer to me...?
Nothing can reach me...
nothing can reach me...
Maybe I'll accend to some music
knowing nothing can reach me...
Crack open the window
won't you sit closer to me...?
