

Faster The Chase

Inme

I, I feel alone, feel alone
Someone takes my picture, takes my picture
But never looks at me in the eyes
You don't see me laughing, you don't
But I'll still be here waiting for you
I feel alive, you are my ecstasy
It's you that I'm craving
I feel like you are my energy
So why do you hate me?
I feel at home, feel at home
Someone takes my feelings, takes my feelings
And throws them all away
And I know you don't see me laughing, you don't
But I'll still be here waiting for you
I feel alive, you are my ecstasy
It's you that I'm craving
I feel like you are my energy
So why do you hate me?
Leave and take me with you, take me
I'll still be chasing you faster
Chasing faster
Leave and take me with you, take me
I'll still be chasing you
I feel alive, you are my ecstasy
It's you that I'm craving
I feel like you are my energy
So why do you hate me?
I'm holding you, holding you close to me
You are my angel
I lost control, you were my enemy
But now you're my friend
