Free time, free time
I have got it, gonna get me some
Free time, free time
I would spend it, forever captivated Free time, free time
Would you tell me the secret of your arm?
Free time, free time
Forever fabulous, blowup, pleasurable I feel combustible
That's my will say it all
Mille feuille
Mille feuille
Mille feuille
Mille feuille Now you better take a deep breath
This smell is just the best
I'll transform even your breast
You are my new weekend guest
Can't believe this could happen to me
Caught inside someone's knee Free time, free time
Uncovered forever, barest endeavor
Free time, free time
If you want me, splash me forever Free time, free time
Let it happen, the leisure enchanting
Free time, free time
Your neck is my favorite, please don't spare it I feel combustible
That's my will, say it all
Mille feuille
Mille feuille
Mille feuille
Mille feuille Now you better cough on so dough
If you want to join this show
Exotic is not for free
Spend wisely eternity
Angel I desire on the road
Don't get stuck without a job Free time, free time
You have got it, gonna get me some
Free time, free time
Wandering, fantastic, sparkling demanded Free time, free time
Did I mention that you control me?
Free time, free time
The merest endeavor, slightly forever

Free time
