## Jack Off Jill

Mama killed the baby  
Now the daddy was in town  
Drove up in his pick-up truck  
and buried her underground  
The rebel force will save me  
Pink panties all around  
What they said is so unreal  
I guess it was profound, when they said  
Everybody?  
Anybody?  
Somebody?  
NOBODY!  
Mr. Anti-everything  
Atari stick in hand  
Bat me on the forehead  
So I could understand  
He smeared his face with lipstick  
And yelled and screamed real loud  
Point in my direction  
and rub semen on the crowd  
When he said  
Everybody?  
Anybody?  
Somebody?  
NOBODY!  
Everyone needs a hero  
Nobody needs a star  
Will you still adore me  
When I've gone way too far  
The rebel force will save me  
They grabbed my little hand  
Threw me in a pick-up truck  
Cause I don't understand.
