Tune to the Music

Status Quo

Excuse me [Incomprehensible]
Can't you hear what I say?
I guess I'm [Incomprehensible], going on my way
I know there's something
Something's going wrong now
And there's no tune to the musicMy eyes are burning
Can't anybody hear me?

My head is turning

My head is turning Need somebody near me But since you walked out Everything is so wrong

There's no tune to the musicThe sounds are ringing

Emptiness is all mine
Nobody bringing
Thing to make me feel fine
I know there's something

Something's going wrong now

There's no tune to the $musicExcuse\ me\ [Incomprehensible]$

Can't you hear what I'm saying?
I guess I'm [Incomprehensible], going on my way
I know there's something
Something's going wrong now
There's no tune to the music
No words to my songs
