Pedalpusher

Stereophonics

I gotta get in on the scene hun? Voice activate machine
You got ya hair in a haircut, you gotta fill up the dream
You got ya finger on the pulse babe, you got your rock 'n' roll on?
You wanna screw driver too now, I hear they're fun onYou got it all this side up but you ain't got it down
Push the pedal nowActivate your sweet voice babe, let your world come out
You get ya head off the chopping block and get ya Ouija board out
You got ya rubber on a pencil, in case you make a mistake
I hope you got it all down babe, I'd hate to think you're a fakeYou got it all this side up but you ain't got it down
Push the pedal now
You got it all this side up but you ain't got it down
Push the pedal now and push and push and push and pushYou got it all this side up but you ain't got it down
Push the pedal now
You got it all this side up but you ain't got it down
Push the pedal nowYou got it all this side up but you ain't got it down
Push the pedal now
You got it all this side up but you ain't got it, push
