

# Our Kitten Sees Ghosts

## Califone

Scratched and bit crawl out of the fault line this book is  
The mask on the bride circle til the engine dies tail  
High let it lay burn our dead shin high it's almost  
Surgical the way you shatter when you hit the water drawn

On the window steam claws on sleep addiction this  
Conversation is the dust on anything slow and green burn  
Our dead this unwilling is the way you shatter when you  
Hit the water

---
