# Like I Am

## Rascal Flatts

Lying here with you
I watch you while you sleep
The dawn is closing in
With every breath you breathe

I can feel the change
The change you've made in me
But will I ever see
All the things you see in me

[Chorus]
When you say that I'm one of a kind
Baby, I don't see it but you believe
That I'm so strong and true, I promise you
I'll try to be that kind of man
Because you love me like I am

When it comes to love
I may not know the rules
But there's one thing I know
My heart belongs to you, just you

[Repeat Chorus]

[Bridge]
You show me you love me
With a fire that burns deep inside

[Repeat Chorus Twice]

- I am
I'll never understand
I don't think I'll ever understand
Why you love me
Why you love me just like I am

[Fade]
