Christmas Time

Cider Sky

Oooh oooh oooh ooh oooh oooh ooh ooh ooh ooh ooohHey, say if you're frozen
You can always come to me
I, will take your hands in mine
I can warm them easilyWinter snow, gets so cold.
But you can always come home
You can always come homeChorus: Real lights up the chimney tops
And there's a fire that's warm and I will be waiting
Got my heart it's all wrapped up
You put your hand in mine and it feels likeChristmas Time
Christmas Time
Christmas TimeTime, if I could stop it
Then it would always be like this
One starry night
Always together
Under the mistletoe, a kissWinter snow, gets so cold
But you can always come home
You can always come homeChorusYou know I love you in my heart
I say it every day
It's Christmas Time, the sleigh bells ringing like it's on its way
You know I love you in my heart
I say it every dayWinter snow, gets so cold
But you can always come home
You can always come home.Chorus
