

Christmas Time

Cider Sky

Oooh oooh oooh ooh oooh oooh ooh ooh ooh ooohHey, say if you're frozen

You can always come to me

I, will take your hands in mine

I can warm them easilyWinter snow, gets so cold.

But you can always come home

You can always come homeChorus: Real lights up the chimney tops

And there's a fire that's warm and I will be waiting

Got my heart it's all wrapped up

You put your hand in mine and it feels likeChristmas Time

Christmas Time

Christmas TimeTime, if I could stop it

Then it would always be like this

One starry night

Always together

Under the mistletoe, a kissWinter snow, gets so cold

But you can always come home

You can always come homeChorusYou know I love you in my heart

I say it every day

It's Christmas Time, the sleigh bells ringing like it's on its way

You know I love you in my heart

I say it every dayWinter snow, gets so cold

But you can always come home

You can always come home.Chorus
