I'll Be Here

Mushroomhead

No you don't believe in me
No you don't believe in me
and I sure as hell, don't trust in you
Left that a long time ago
your life turned inside out
Look at me to point your finger
but your time is running out
The bridge is down and done
The bridge is down and done,
No we can't start
No we can't start
'til we find where we've begun
I'll be here before the end of time
to take you home
Cut yourself a slice of life
before eternal cold comes down
believe in me [x2]
Why find a way out
till you damn sure have been in
Won't be long to much of nothing
End these dreams of death and live
Figure it out, put you down
for an hour, or a day
Could be a minute, or they waste it away

I'll be here before the end of time
to take you home
Cut yourself a slice of life
before eternal cold comes down
I'll be here before the end of time
to take you home
Cut yourself a slice of life
before eternal cold comes down
Left that a long time ago
In a sea of disappointment
no we can't stop. 'til we find where we begun
Don't ask for forgiveness,
Ask for trust cause change
is the path we laid for us,

No we'll never stop
No we'll never stop, asking for this
Take a stand against the prejudice.
you ask for this
All the blind can see there's never justice
All the deaf can hear the words that I say
Don't ask forgiveness, asshole [x2]
The best of nothing left
