

Hello Good Morning (remix)

Diddy

Yeah, yeah

Yeah, yeah

Hello, good morning

Lets go, lets ride,

Hello, good morning

Hello, good morning

Know you've been wait-in' for it

Cause I seen you watchin'

So lets go

Lets get it poppin'

[Chorus]

Cause I've been leaning on the bar

Looking cleaner than the star

All these broads wont give me my props

Twenty five on the bank I be stunting on there a**

And they mad cause the b***** won't stop

Got your boyfriend feeling like a groupie

(you know, you know, you know, we on that)

Stuntin' like you looking like a movie

(you know, you know, you know, we on that)

And everybody know who the truth be

(you know, you know, you know, we on that)

I blow cause I'm blowing on the ooh wee

(you know, you know, you know, we on that)

Hello

Hello, good morning, how you doing? What the move is?

Welcome to the future I'm the captain of the cool kids

The revolutions never been televised

Great booty better thighs I ain't wanna tell her bye

First, I tell her hi, then I give her one and let her fly

Never tell her lie the night you couldn't find a better guy

King s*** fly to anywhere you get seen with

Gangsta distinguished, cool as a penguin

Got a team of them, honey feel free to bring with

G-5 waiting, fly away at my convenience

You seen Tip checking in a 5 star suite with some 5 star freaks

Gettin' high all week, catch me in the V
I was in the back when y'all sleep
In a fast car super bad broad back seat
That's me, see I'm nothing nice, f*** a couple nights
See the moon say goodbye and the sun greeting us like

Hello, Good morning
Lets go, lets ride,
Hello, good morning
Hello, good evening
You blow, you feindin'
Cause you know that your really needed
And I'm the one that you wanna be with
But right now baby you dreaming
Wake up and turn the lights off

[Chorus]

Hello, good morning
Lets go, lets work,
Hello, good morning
Lets go, lets work,
Hello,
Ay yo,
Turn me up a little bit more,
I don't think they can hear me
Check this out
Bad Boy b*****
Lets work
Come on
Lets work
Non-stop lets rock lets work
Make you feel good too
Don't stop I see you lets work
It's that dirty money

Uh, how fly is he?
Your baby momma cry for me like Jodeci
So how you not notice me
Pull up to the club in the coldest V
Ugh, literally though little did he know how that n***** Diddy flow
How that n***** Diddy go so hard like a crowbar still getting dough
Whoa, whoa, whoa

Yeah I like this, can you feel it

Nothing can save ya
Its that Dirty money

Got your boyfriend feeling like a groupie
(you know, you know, you know, we on that)
Stuntin' like you looking like a movie
(you know, you know, you know, we on that)
And everybody know who the truth be
(you know, you know, you know, we on that)
I blow cause I'm blowing on the ooh wee
(you know, you know, you know, we on that)
Hello

Hello, Good morning
Lets go, lets ride,
Hello, good morning
Hello

Hello, hello, hello, hello,
