

Everything Is Moving so Fast

Great Lake Swimmers

What sort of pressure
and what kind of force
must there have been to drive you here?

Was it uplifting
or was it deformed
faulting and rifting
before them?

What does it feel like to fall
in slow motion despite it all?
There's no time to think it through
when we're connected over the blue

Everything is moving so fast
I am unlimited.

Everything is moving so fast
I am unlimited.

What sort of wisdom
and what kind of thought
must there have been to scatter you?

So far and random
your heavenly body
still see the thin light in your eyes

What does it feel like to fall
in slow motion despite it all?

There's no time to think it through
when we're connected over the blue

Everything is moving so fast
I am unlimited.

Everything is moving so fast
I am unlimited.

Everthing is moving so fast
I am unlimited.

Everthing is moving so fast
I am unlimited.
