## spurv laerke

Tech N9ne Ft. Prozak & Brotha Lynch Hung ? My Favorite  
Steady shooting for the stars on this vertical journey  
I be recruiting more for bars  
Gotta be hard,...  
I'm running with cannons that really loosen your regards  
Greedy my money, and then some  
These motherfuckers will murder you for your income  
So when the flash... to begin from  
Spitting my favorite of Prozac and Lynch Hung  
After the shows I'm thinking about food  
Just give me some... and drinks I'm cool  
You probably thinking that a womens on my tube  
But I drool over Italian cooking is my jewl  
I eat all of it all the time  
At the mall even y'all when they call the n9ne  
Money tall yes I ball missing all the sign  
... draw the line  
Doctor said that my blood pressure pshew  
I was happy for a minute but then refuse  
... I gotta go get it soon, you seeing the nigger zoom  
Capital grill and a melting pot, they know my name... help a lot  
... I can't stop eating, I really love eating  
I know my body be wishing I was vegan  
The fat of my stomach it was leaving me, feeding me  
All I be thinking when I be breathing unevenly  
Don't matter, I'm taking it to the head  
Tucking my tummy...  
Im going to pig out until a nigger dead  
Insatiable's my name when it comes to my favorite things  
I sleep my sins off in the day and then at night I come to pray  
Of my favorite  
I never plan to die, too much I haven't tried  
Give me more, give me more  
I crave it, yes I love it, that's my favorite  
I'm an addict, who spreads his mannic on everything  
Kamikaze coming closer to my blood stream  
Caffeine, nicotine and the good green  
A top of vikoden and its kinda like im taking flight again  
Prepare for lift off, stimulation drift off

If I don't feed my addiction I'm getting pissed off  
All these voices they cipher my life span

Monkey on my back I got the devil in my right hand  
Always leading me, deceitful theivery  
And proccedes to impede till theres no more steam in me  
In need to feed the beast starved it eagerly  
I can't seem to leave it be and be free  
Feel my synapses, collapsing,  
I'm gasping, I think I'm going out like Michael Jackson  
Tunnel vision everything is turning black  
And im heading to a place where there never is no comming back  
Swan dive in the lake of fire, all thanks to my faithful drug supplier  
All it takes is a taste, are you ??wants?? subscriber  
Under the reigns of the chains of your own desire  
Do you do god .....

Never slave to his ways you cannot defy him  
Such a waste of this race till your life expires  
No escape, given chase like Michael Meyers  
Insatiable's my name when it comes to my favorite things  
I sleep my sins off in the day and then at night I come to pray  
Of my favorite  
I never plan to die, too much I haven't tried  
Give me more, give me more  
I crave it, yes I love it, that's my favorite  
After the shows I be off to eat  
Got a big fat... and it be off of me  
6 in the morning I be off...  
6 in the morning like my nigger has tea  
I pop all of it all the time  
And they put me in the zone when I'm writing rhymes  
Drugged out, about to take the mug out  
Taking gallons of water I gotta get the drugs out  
So stuck like I'm...  
Yeah I'm the nigger that... hold up  
... I be off the top...  
Y'all better than us...  
And it's all up to her, she popped the pill  
Insatiable's my name when it comes to my favorite things  
I sleep my sins off in the day and then at night I come to pray  
Of my favorite  
I never plan to die, too much I haven't tried  
Give me more, give me more  
I crave it, yes I love it, that's my favorite
