

Girl

Stereophonics

I've seen the one to take my eye
She's my Sunday best
She'll blow my mind, rob me blind
Then she'll take the rest Another drink in your sink
Down a drunken well
Chasing stars, catching cars
To the moon again Girl you got me going
Don't you wanna fly?
Girl you got me going
Don't you wanna fly? Girl you got me going
Don't you wanna fly?
Girl you got me going
Don't you wanna fly?
High, yeah, yeah, yeah Mirror face to her place
Head's a hazy mess
Falling down, look a clown
Jekyll's out again Feeling sick lunatic
Beat myself up well
Call the cars, fuck the stars
Get me down from hell Girl you got me going
Don't you wanna fly?
Girl you got me going
Don't you wanna fly? Girl you got me going
Don't you wanna fly?
Girl you got me going
Don't you wanna fly?
High, yeah, yeah, yeah
