Atom And Evil

The Golden Gate Quartet

Blue skies, once upon a dream
All eyes never in betweenThen into the garden came the spider
"I'm here for you," said the spider to the fly
And when I'm through, you can open up your eyes to seeYour world on fire, and the liar won't let go
Atom and EvilOne more promise
We can tame the sun
And then we'll shine forever
Someday you can cry for everyone
We'll burn when you were cleverOh!Expand your mind, we've got a place for you
Just make believe that one and one are always twoWhen into the parlor comes the spider
Just say NO!Atom and EvilFalling's easy
Rising will never be
So we must rise together
Here are the changes
Powerful harmony
But then there's no foreverAtom and EvilMaybe if we cry together
Maybe if we cry as one
The tears will fall to chill the fire
And keep everyone from
Atom and EvilAtom and Evil
Atom and Evil
Atom and Evil!
