Thick Skin

Systematic

Thick skin, I'll break it to ya
Bleed none and wallow in your
The bed they made for youPushed further to resistance
It's hell when you still run to
The bed they made for youFight yourself
Down till you're wellThick skin, I'm mangled uptight
Unwind and never survive
The bed they made for youEvolved into your monster
Thick head, thick skin
The bed they made for youFight yourself
Down till you're wellThe bed they made for youYou've become the lie
It eats you up inside
It's said and done, game overFight yourself
Down till you're well
