

Thick Skin

Systematic

Thick skin, I'll break it to ya
Bleed none and wallow in your
The bed they made for you Pushed further to resistance
It's hell when you still run to
The bed they made for you Fight yourself
Down till you're well Thick skin, I'm mangled uptight
Unwind and never survive
The bed they made for you Evolved into your monster
Thick head, thick skin
The bed they made for you Fight yourself
Down till you're well The bed they made for you You've become the lie
It eats you up inside
It's said and done, game over Fight yourself
Down till you're well
