

# You Are There

## Salvador

I cant go a minute 'way from You  
I dont wanna try  
I cant go a second without knowin'  
That Im on Your mind Youre the reason Im alive I know that in my heart You are there  
I can tell by what Youve done You are there  
When I open up my eyes, I see You everywhere  
I know that in my heart, know that in my heart You are there Theres no way Id go back 'cause Ill remember  
The way it used to be  
Living in the darkness, cold as winter  
Prayin' for the spring Youre the sunlight in my life I know that in my heart You are there  
I can tell by what Youve done You are there  
When I open up my eyes, I see You everywhere  
I know that in my heart, know that in my heart You are there Yeah, yeah, You are there  
Youre the sunlight in my life I know that in my heart You are there  
I can tell by what Youve done You are there  
When I open up my eyes, I see You everywhere  
I know that in my heart, know that in my heart I know that in my heart You are there  
I can tell by what Youve done You are there  
When I open up my eyes, I see You everywhere  
I know that in my heart, know that in my heart You are there
