Belly Full

Genesis Elijah

oh my love
if I had my way then all your dreams
would come true
oh my love
all your dreams and all the world
just for you
oh my love
if I had my way
this for you
spread yourself across my lips

and I spoon you in
the sweetest thing in all the world
oh I want more
there is no place I'd rather be than here with you
under the sun, the pouring rain, all the sky for you
oh my love
if I had my way
this for you
oh my love
make your belly full
and all your dreams to come true
