Help Me Fix My Bike

Up Up Down Down Left Right Left Right B A Start

in time i'll grow up to be a man, i know he won't help me
to fix my bike or my life
in a terrible town i've shown that i can't hold my own
and definately not you're i'm sure
how can i ever talk about it?
how do you always talk around it?
have a nice time some other time
