

Plum Nuts

Etta James

Plum, Plum, Plum, Plum
You know i plum nuts over you Well I told everybody in the neighbourhood
How much I love you
You didn't mean, mean all good
You take all my money, stay out all night long
I need a whisper to make you stay at home Because I plum, plum, plum, plum
you know I plum nuts over you
Yeah You're going around here trying to play it cool
And I always talking about the golden rule
and I maybe crazy but i went ton school
Yeah all my friends say I'm a great big fool Because i plum, plum, plum, plum
You know i plum nuts over you You're lying, tell me I'm the only one in the world
And I'd know you run around with those all of girls
You ain't nothing but a circus clown
You can't bleed me baby I'm gonna put you down You're going around here trying to play it cool
And I always talking about the golden rule
and I maybe crazy but i went ton school
all my frinds say I'm a great big fool Because I plum, plum, plum, plum
You know i plum nuts over you
Yeah plum, plum, plum, plum
You know I plum nuts over you Yeah plum, plum, plum, plum
You know I plum nuts over you
