

# Where Do I Go from Here

## Olivia

Should've known better than to hear your lies  
Should've known you would only make me cry  
Should've known you were too good to be true  
Should've known I was too good for you

No one ever made me feel this way  
I lost myself for you from the very first day  
Now I'm left feeling so confused  
What am I gonna do

Should I go should I stay I don't know  
This is what I asked myself  
Call me a fool for loving you  
Please tell me

Where do I go from here  
Where do I go  
Where do I go from here  
Where do I go

Tell me how did we end up this way  
You've never missed a good thing till it's gone away  
I'm sitting here trying to reason with myself  
Thought you were here thinking about someone else  
Saying you're sorry won't take away the pain  
'Cause things will never ever be the same  
'Cause I was your everything and you were my everything  
And you got my heart you see baby

Should I go should I stay I don't know  
This is what I asked myself  
Call me a fool for loving you  
Baby tell me

Where do I go from here  
Where do I go  
Where do I go from here  
Where do I go

I don't really want to say bye bye

There's so many reasons why  
I don't ever wanna lose your love baby  
When trust walks right out the door  
It makes you so hard to believe you anymore  
This shouldn't be  
Oh baby tell me

Where do I go from here  
Where do I go  
Where do I go from here  
Where do I go

Where do I go from here  
Where do I go  
Where do I go from here  
Where do I go

Where do I go from here  
Where do I go  
Where do I go from here  
Where do I go
