## Hustle Gang

[Featuring: Lloyd][Intro:]Young Lloyd

Aye Holiday we got one

Zone 6, East Atlanta

Stand up

Aye baby you know I'm a raise this motherfuckin cock house

Don't spend nothing in my shit

[Bridge:]I ain't makin this shit up, ho I ain't Maybeline

I got some shit off in my cup that's gonna make ya lean

I told er cool it, please don't make a scene

'Cause I'm a fool with it, this is every day for me

[Chorus:]She want that fly shit (fly shit, fly shit)

Expensive clothes and diamonds (diamonds, diamonds)

Just remember you in my shit (my shit my shit)

If you don't like the ruse then bye bitch (bye bitch, bye bitch)

[Verse 1:]Higher than a pilot, fresher than a stylist

You a bad bitch, I'm a take you to a island

Across the watch game, give the daughters real ballin

If you a grown mane then why you actin all childish?

Bought a new Bentley, I don't even gotta drive it

Parked outside so I jumped inside it

Life fuck out it, the seats can't hide

Proably just flash, smoke a clitch with the pilot

Head so good that will keep me smiling

Forge another rim so I keep on flyin

So as a boss so I keep on divin

And Too Short told me to keep on rhyming

2 Pac taught me to keep on riding

Biggest boss says yo mama be cryin

Owe me buddy and you keep on lyin

I'm a grab my good, I'm a keep on firin

Ball so hard I can touch the sky

I can't even lie, I don't wanna leave I

Goon came in and you tune up yo chain

Fuck them niggas I'm a keep on mine

Your girl so fly and she gonna know why

I ain't gonna tell you, remember one time

Slide in with me, you can come in free

You can stand and freeze in that long ass line

[Bridge:]I ain't makin this shit up, ho I ain't Maybeline  
I got some shit off in my cup that's gonna make ya lean  
I told er cool it, please don't make a scene  
'Cause I'm a fool with it, this is every day for me  
[Chorus:]She want that fly shit (fly shit, fly shit)  
Expensive clothes and diamonds (diamonds, diamonds)  
Just remember you in my shit (my shit my shit)  
If you don't like the ruse then bye bitch (bye bitch, bye bitch)  
[Verse 2:]Runnin down the criss and the Bentley move something  
Little hand choppa and the big weed goin  
Born by myself, I don't need no one  
If you don't got no enemies, make you some  
Sometime buddy can make you dumb  
Run it on yo head, better get yo gun  
Broke ass nigga can't even make bun  
I don't trust that bitch, money make er cum  
Flyin to the nigga, tryna go to the park  
Smokin on kush like fuck my lungs  
None of these hoes can't meet my mom  
At the end of the day you want a sucka son  
Love as like I don't so I feel like frontin  
I ain't never ever had so much fun  
500\$ gun and a million on jewels  
And I whip yo ass up like you jumped in the pool  
Feeds wanna get me just like Ja Rule  
Five ass bitches, that deja-vu  
Wutchu gonna do with no scrubs on you?  
And kicks so fly, got a birds eye view  
Gucci 2 times, 2 times times 2  
All this money can't fit in these troops  
This a T neck so my neck hurt too  
But I pity the fool tryna try my crew  
[Bridge:]I ain't makin this shit up, ho I ain't Maybeline  
I got some shit off in my cup that's gonna make ya lean  
I told er cool it, please don't make a scene  
'Cause I'm a fool with it, this is every day for me  
[Chorus:]She want that fly shit (fly shit, fly shit)  
Expensive clothes and diamonds (diamonds, diamonds)  
Just remember you in my shit (my shit my shit)  
If you don't like the ruse then bye bitch (bye bitch, bye bitch)
