

Problems

Pinegrove

this is how i spend my life up
singin old songs
what if i waste my life up?
& all my problems
it's so stupid
they're not even problems
it was supposed to snow
& it did for a minute
but there's no distraction now
or we could spend these years up
on the phone
but is that much better?
it was supposed to snow
but it didn't
so there's no excuses now
