Obstruction

Living Sacrifice

Being held fast by the cords of affliction
Subjected to mental infiltration
Conceived thought, compromise obtained
Appealing to desires, fatal if remainAfflicted spirits under the authority
Christ proclaimed, obstruction cease to beDepraved aphrodisiac wars against the soul
Fulfilling strategies of complete control
From the deep [unverified] of a darkened mind
Twistedly emerge images of this kindLegions of the air, on this journey they lead
Obsession inspired, nurtures dormant
Trouble is presented by an unjust gain
Selfish ambitions that were plotted in vain
