

# It's Working

William Murphy

This is my season for grace for favor

This is my season to reap what I have sown This is my season for grace for favor yeah

This is my season to reap what I have sown See, I haven't been perfect, but I sure been faithful

See, God's got a purpose yes, and I know He's able I've got a seed in the ground, that He's blessing no more  
stressing

I've got a seed in the ground, now I know Him I can show Him This is my season for grace (for grace) for favor  
(for favor)

This is my season (to reap what I have sown) This is my season for grace for favor

This is my season to reap what I have sown Everything is working together for my good

Everything is working don't feel good (together for my good)

Everything is working together (together) for my good (for my good)

Everything is working together (together) for my good (for my good) It's good (it's good) it's good (it's good)  
it's good (it's good)

It's working for my good

It's good (it's good) say it's good (it's good) say it's good (it's good)

Say it's working together for my good

It's good (it's good) it's good now (it's good) say it's good (it's good)

It's better, it's working together for my good

It's good (it's good) real good (it's good)

Say it's working for my good (it's working for my good) This is my season for grace for God is leaning in my  
direction

(He's leaning in my direction)

(He's leaning) in my direction (in my direction) 'Cause, this is my season for grace for favor yeah

This is my season to reap what I have sown

I've got a seed in the ground (seed in the ground), I've got a seed in the ground
