

# Touch

## Daughter

Love hunt me down  
I can't stand to be so dead behind the eyes  
And feed me spark me up  
A creature in my blood stream choose me up So I can feel something  
So I can feel something Give me touch  
'Cause I've been missing it  
I'm dreaming of  
Strangers  
Kissing me in the night  
Just so I  
Just so I Can feel something You steal me away  
With your eyes and with your mouth  
And just take me back to in your house  
And stare at me with the lights off To feel something In the night  
In the night  
In the night  
When we touch  
In the night  
'Cause I've been lusting it
