# About Her

## kill bill, vol. 2

Well no one told me about her
The way she lies
Well no one told me about her
How many people criedWell no one told me about her
The way she lies
Well no one told me about her
How many people criedBut its too late to say youre sorry
How would I know?
Why should I care?
Please dont bother to find her
Shes not thereWell no one told me about her
Well no one told me about her
How many people criedBut its too late to say youre sorry
How would I know?
Why should I care?
Please dont bother trying to find her
Shes not there
Shes not there
