Almost There

Pedro the Lion

At least in my dreams
When I'm sleeping it seems
That the needle is full endlessly
But you keep on waking meI'm almost there
It's on the tip of my tongue
And it never goes away
It never comes to stayThe chances are slight
I won't shoot up tonight
But the sensation that's waiting beneath
Is a kick in the teethAlmost there
It's on the tip of my tongue
And it never goes away
It never comes to stayI'm almost there
It's on the tip of my tongue
And it never goes away
It never comes to stayAnd it never goes away
