Cheekybugger

Len

I could always believe that I'm reachin'
Out for nice furry things
And the only real way I'm gonna get myself back
Is to scream real loud and punch me in the face'Cause I know theres only one way to eat it
Just shove it in my face and hope for the best
And I know there could be a big prize in it
So make believe its worth it and count for the restThinking nervously, sitting in my seat
When I'm counting cars go by
I realize there are more of them than me
So I wimp out and wave bye-bye'Cause I know theres only one way to eat it
Just shove it in my face and hope for the best
And I know there could be a big prize in it
So make believe its worth it and Ill be back[Incomprehensible]I could always believe that I'm reachin'
Out for nice furry things
And the only real way I'm gonna get myself back
Is to scream real loud and [Inaudible]'Cause I know theres only one way to eat it
Just shove it in my face and hope for the best
And I know there could be a big prize in it
So make believe its worth it and [Inaudible][Incomprehensible]
