

# Cheekybugger

Len

I could always believe that I'm reachin'  
Out for nice furry things  
And the only real way I'm gonna get myself back  
Is to scream real loud and punch me in the face 'Cause I know theres only one way to eat it  
Just shove it in my face and hope for the best  
And I know there could be a big prize in it  
So make believe its worth it and count for the rest Thinking nervously, sitting in my seat  
When I'm counting cars go by  
I realize there are more of them than me  
So I wimp out and wave bye-bye 'Cause I know theres only one way to eat it  
Just shove it in my face and hope for the best  
And I know there could be a big prize in it  
So make believe its worth it and Ill be back [Incomprehensible] I could always believe that I'm reachin'  
Out for nice furry things  
And the only real way I'm gonna get myself back  
Is to scream real loud and [Inaudible] 'Cause I know theres only one way to eat it  
Just shove it in my face and hope for the best  
And I know there could be a big prize in it  
So make believe its worth it and [Inaudible] [Incomprehensible]
