

# Hit List

## Kyan Palmer

(First Verse)

Try to be my own hero  
Let's see how this goes  
And my sidekick is this bottle  
Hope it can help me Walkin' out on me  
The sound of your heels whisper as you go  
"Don't you follow me,  
I feel pleasure seeing you all alone" I know all I am to you is just another guy  
You make sure our hellos always end with a goodbye Try'na get you back  
You shot me down

Ever since you left my hearts  
Forever bleeding red rum (Pre-Chorus)  
You pointed your round straight at my chest  
And spiraled me into cardiac arrest, I  
Know now that you and I never existed  
(I'm) just a name on your hit list. (Chorus)

On your hit list

Ohhhh

Your hit list

Your hit list

Oh I'm on your hit list (Second Verse)

Everything's new  
The old me died because of you  
You played a sweetheart  
But, you're the reason for these scars I gave you all of me  
What more could I do?  
Thought one and one was two  
But found it meant 11 to you I still trusted ya  
Hell, I even committed to ya Mars, Mi amore  
Let down these walls for the goddess of war You're the reason my heart pounds  
This morse code of hollow sounds.

Screaming get me out, get me out, oh get me out (Pre-Chorus)

You pointed your round straight at my chest  
And spiraled me into cardiac arrest, I  
Know now that you and I never existed  
(I'm) just a name on your hit list. (Chorus)

On your hit list

Ohhhh

Your hit list

Your hit list  
Oh I'm on your hit list(Bridge)  
Resurrect me now  
Resurrect me now  
Resurrect me now  
Resurrect me now  
Resurrect me now  
Now now now(Pre-Chorus)  
You pointed your round straight at my chest  
And spiraled me into cardiac arrest, I  
Know now that you and I never existed  
(I'm) just a name on your...(Chorus)  
On your hit list  
Ohhhh  
Your hit list  
Your hit list  
Oh I'm on your hit list
