I'm Not Done

Fever Ray

So, I lost my head a while ago
But you seem to have done no better
We set fire in the snow
It ain't over, I'm not doneSome do magic, some do harm
I'm holding on, holding on
I'm holding on to a strawWho is the Alpha? What is made of cloth?
How do you say you're sorry?
And there's nothing to be afraid ofIs it dark already? How light is a light?
Do you laugh while screaming?
Is it cold outside?
