Photo

Ryan Cabrera

A photo can say a thousand things
But it can't say the million things
I wanna say
A photo can capture the way we were
But it can't capture the way we are
'Cause you're far away
What it's like to know you
What it's like to touch you
Yeah
When you told me that you loved me
Were those just words?
You can't tell me you don't need me
And I know that hurts
'Cause I'm looking at your picture
'Cause it's all I've got
And maybe one day, you and me will have
One more shot
Timing, lost minutes and moments
Yeah, I might be lonely, girl
But I'm not afraid
In a second, it all comes right back to me
No, nothing's forgotten now
Yeah, every thing's saved
What it's like to touch you
What it's like to know you
Yeah
When you told me that you loved me
Were those just words?
You can't tell me you don't need me
And I know that hurts
'Cause I'm looking at your picture
'Cause it's all I've got
And maybe one day you and me will have
One more shot
You were my life
You were my faith
You gave me hope everyday
When you told me that you loved me
Were those just words?

You can't tell me you don't need me
And I know that hurts
'Cause I'm looking at your picture
'Cause it's all I've got
And maybe one day you and me will have
One more shot
