

The Way That You Love

Vanessa Williams

It's just the way that you love
You know you drive me crazy
It's just the way that you love
You know you drive me crazy I've been waiting for this moment secretly
Counting every minute, every hour till you're with me
'Cause I know just what's in store
And now I'm in your arms, so baby close the door Why waste another minute, ooh let's get right to it
Baby, turn the lights down, we don't have to say a word
Unspoken pleasure, there's no way to measure
How you make me feel when you're near me, whisper softly It's just the way that you love
You know you drive me crazy
It's just the way that you love
You know you drive me crazy And it seems time flies whenever I'm in your arms
I like to savor every second, you thrill me with your charms
Now I'm lost in the magic that we share
When I look into your eyes, I know how much you care Don't wanna rush the feeling, 'cause loving you's so
healing
Feel the satisfaction, you got me calling out your name
More than emotion, let's keep this fire going
Now we're lost inside our love sweet surrender, so tender It's just the way that you love
You know you drive me crazy
It's just the way that you love
You know you drive me crazy Ooh, you know me, oh, so well
You always take your time, you always get it right
You, you set my soul on fire, and I know you've got my rhythm
'Cause you take me higher It's just the way that you love
You know you drive me crazy
It's just the way that you love
You know you drive me crazy It's just the way that you love
You know you drive me crazy
It's just the way that you love
You know you drive me crazy It's just the way that you love
You know you drive me crazy
It's just the way that you love
You know you drive me crazy
