

# Wished For You

## Squirrel Nut Zippers

I wished on a star "Send me down a lover  
Don't want any other kind of love"  
Wished on a star "Save my heart from sadness  
Save my mind from madness from afar"Used to sit and cry all day  
Wonder why my love would fade  
Used to while away the hour  
Cannot go on, cannot go on, without you  
Now I don't do the things I used to do  
Ever since the day I wished for youUsed to sit and cry all day  
Wonder why my love would fade  
Used to while away the hour  
Cannot go on, cannot go on, without you  
Now I don't do the things I used to do  
Ever since the day I wished for you  
Ever since the day I wished for you
